

OPTICAL LIGHTGUIDES AND LENSES

CTC OP

CUSTOM LIGHTGUIDE

HEMISPHERICAL LENSES

Chromatechnic offers custom designed low cost optical lenses and lightguides for illumination and sensor applications. Prototypes are produced, and can be combined with emitters and/or detectors to prove concepts quickly, this can be for the final product or as a stepping stone to a molded product. Mounting, sealing and optical filter features can be built in.

Product selector

Lenses - Spheric, aspheric, cylindrical, GRIN		Optical filters
Light guides Prismatic, fibre optic		Sapphire and glass windows
Combined optical assemblies		Apertures, ESD screens, dust and moisture seals,
Molded glass	Machined plastic	Molded plastic
